Dear Ralph,

Thanks for your letter. You seem to be enjoying the Palazzo Hicks¹ and the *placiditas* (a perfectly correct word) of the place.

For your visit on Lake Tahoe (same house, same place as last time) the last week of August would be best, say, around the 25th. But I might phone you from AI Tahoe (General Delivery) and find out that the situation is like with you. I also wanted to meet Leonardo Olschki in Strawberry Lodge about that time.

You have probably seen Gordon Griffiths in the meantime with whom I had a couple of nice talks three weeks ago and who told me he was going to see you in Berkeley. He is with the family in Inverness.

No other news. The heat is terrific and the humidity beyond anything imaginable. I can hardly do any work because I fall asleep at the typewriter and nothing occurs to me anyhow. One of my former students, Joachim Remak, who was at U. C. before your time, but whom you may have met, has published a book on Sarajevo. It seems to be very biased in a pro-Austrian sense, but one probably cannot blame him for that.

Have a good time in your pleasant Californian climate.

Love

EKa. [Signed]
